

## Diploma Of Energetic Healing

### What is Energetic Healing

Energetic Healing is a term used to describe a method of healing that uses a wide variety of living remedies to balance the bodies subtle energies. Energetic (Vibrational) Healing incorporates the use of Chi energies within living organisms such as plants, gemstones and crystals, water, sunlight, and even the foods we eat. Almost everything we touch and see around us has a living pulse inside of it.

In a living organism, resonance and polarity of energy is believed to regulate cellular arrangement and stability. However, without these influences, a lack of order may occur. In fact, practitioners of vibrational medicine contend that a blockage or other disturbance in energy flow promotes a state of imbalance, which may eventually lead to illness. In addition, the body can be affected on any level, impacting emotional and spiritual health as well as physical health.

Energy vibrations can be introduced or transferred from one or more, higher resonating bodies to another to promote harmony and balance. This principle is the very essence of vibrational medicine and its use as a healing tool. The paths to rearrange or transfer energy frequencies are represented by the five senses. The tools used to raise or balance vibrational frequency are quite varied and include aromatherapy, sound therapy, color therapy, and working with crystals and gemstones.

**Course duration:** 6 terms over 2 years.

**Payment options:** In Full - or - Payment Plan - 10% Discount for Pensioners.

**Qualifications:** Graduates receive a Diploma of Energetic Healing.

**Who recognizes my qualifications:** The Energetic Healing Association of Australia. ( in negotiation)

60 hours of Supervised Student Clinic need to be completed.
